

## DIVERSITY MODELLING CRAFT ACTIVITY

### ACTIVITY (15 MINUTES)

1. Each person needs one smallish ball of modelling clay, ideally have different coloured balls for people to use.
2. Ask someone to suggest an animal for everyone to make and agree the animal with the group (see rabbits below) (allow them 10 minutes to make it).
3. At the end of the 10 minutes, ask everyone to hold up their models, pointing out how everyone's version of a rabbit/frog etc. looks different (colours, shapes, sizes, features etc.) and how as with people, everyone is different and that this is a good thing.
